To the right, a fire pit made of large, flat stones contains a bright, crackling fire. A wooden table is placed next to the fire pit. In the background, a low, rustic stone wall separates the patio from a path that leads into a dense forest of tall, thin trees. You have the option of receiving a rental disbursement once or twice per month. We aim to be a paperless office, so your financial statements will be electronically sent unless otherwise instructed.

The payment options into your nominated financial institution are;

Ingoing Inspection Report

This inspection is undertaken prior to your tenant taking possession of your property, We complete a thorough written and photographed Condition Report which is used to ensure the tenant leaves the property in the same condition as when they moved into the

premises. It helps to ensure the protection of your property and its fixtures. This also assists with the prompt return of your tenants' bond if there is no cause for dispute.

Routine Inspections

We conduct regular inspections during the course of each Tenancy (legislative requirements apply). This purpose is twofold, it determines that your tenant is looking after your property as they should and provides us with the opportunity to make recommendations on renovations and/or maintenance required.

Lease Renewals

We will contact you prior to the expiry of the current fixed term agreement in order to seek your instructions moving forward with the tenancy. At this time, we will make recommendations as to our opinion of an achievable rental return. Once we have received your instruction to proceed with a new lease, we will contact the tenant on your behalf.

Rent Reviews

Rental Reviews are conducted on your property, even if a further fixed term is not entered into, During our Routine Inspections we make a rental assessment based on the current market and can inform you of this in our inspection reports.

Outgoing Inspection

This inspection is conducted once the tenant has vacated the property and returned the keys to our office. using the Ingoing Condition Report and images that are completed at the beginning of the tenancy we compare (allowing for fair wear and tear) and ensure that your investment is left in the best condition possible for the next tenancy.
